

BOSUN CHAIR

Bosun's chair with inner aluminum reinforcement, padded seat for comfort and steel buckles for easy adjustment.

BOSUN CHAIR

Cleaning & maintenance

Products do not require any special maintenance, aside from cleaning. Cleaning of your SDA product is important to prolong its lifetime. Use a damp cloth if necessary.

Inspection

Look for damage, deterioration or malfunction before and after every use. Inspections should only be made by trained and authorized personnel. Every inspection should be registered in the product dossier.
