

TEMPORARY HORIZONTAL WEBBING LIFELINE 2 USERS

The temporary horizontal webbing lifeline can be adjusted from 6.5 to 65.6 ft (2 to 20 m). It can be connected to an anchor strap and the ratchet is used to provide the tension to the system after setting the distance required. Suitable for two persons at the time.

TEMPORARY HORIZONTAL WEBBING LIFELINE 2 USERS

Cleaning & maintenance

Products do not require any special maintenance, aside from cleaning. Cleaning of your SDA product is important to prolong its lifetime. Use a damp cloth if necessary.

Inspection

Look for damage, deterioration or malfunction before and after every use. Inspections should only be made by trained and authorized personnel. Every inspection should be registered in the product dossier.
