

POLYPROPYLENE STRETCHER

Highly flexible polypropylene stretcher. Useful for fast recovery.

POLYPROPYLENE STRETCHER

Cleaning & maintenance

Products do not require any special maintenance, aside from cleaning. Cleaning of your SDA product is important to prolong its lifetime. Use a damp cloth if necessary.

Inspection

Look for damage, deterioration or malfunction before and after every use. Inspections should only be made by trained and authorized personnel. Every inspection should be registered in the product dossier.

Type:	Material:	Length:	Width:	Weight:	Maximum load:
Rescue	Polypropylene with polyamide	8.20 ft/2.5 m	2.95 ft/0.9 m	12.13 lbs/5.5 kg	441 lbs
